

# Oxygen Absorber

We provide excellent packaging material for Food Product which is to be preserved for longer Period OR exported by shipment or storage where duration between packing and reaching to end user is high and food products get damaged due to moisture.

O-Buster protects from mold, mildew, bacteria, color change, taste change, insects & toxins. O-Buster helps in eliminating the need for additive, gas flushing & vacuum packaging.

## The Oxygen absorbers will protect your product from following:

- › Remove oxygen in a packaged environment
- › Absorbs up to 3 times it's weight in oxygen
- › Maintains product freshness
- › Extends product shelf life
- › Safe & easy to use
- › FDA approved, to use with food and food related products.

To prevent it from fungi, Mold and bad odour we have Oxygen absorber .this prevent bacterial growth by absorbing oxygen present inside the Packed box.

This can be used for Vegetables, Meat Product, Confectionary, Cereals, pulses, Spices & Biscuits.

You are requested to inform us your packing details & dimensions to calculate the amount of treatment in individual packages.
